### NEWS BRIEFS

Premier Aberhart has returned to Edmonton yesterday well satisfied with the result of his various utterances. He states it is not likely there will be a Fall Session of the Legislature.

A Social Credit Candidate has been asked for West Calgary, despite the Premier's advice to the contrary.

The world is small: Despite all the miles of Canada and all the days preceding October 14th, Premier Bennett and Leader King had so arranged their schedules that both would appear in Edmonton on the same day. However, as Mr. King's arrangements were first completed, Premier Bennett passed up Edmonton. The radio comes to the rescue again, and so one will miss hearing the Premier.

Premier Aberhart plans to retire all overment employees of men at 65 and women at 60. This he says is necessary to increase efficiency and decrease administration costs.

As a clergy endorser on Fair and Exhibition platforms he was in a class by himself, and often times divided the entertainment 50-50 with the performing troupes.

We recall one year in Calgary when Billy was far from well, and found it difficult to go through his amusing tricks. The audience not knowing this cheered and clamored for more. It was a concrete example of some of the tragedy of life, portrayed in the songs Laugh Clown Laugh, and Play Fiddle Play.

He died of heart trouble. He was 19 years of age.

## STRATHMORE DISTRICT SCHOOL FAIR OCTOBER 4 AND 5

THIRTY YEARS OF PROGRESS

Alberta Population Grows from 72,000 in 1905 to 779,000 today.

Alberta and Saskatchewan as provinces came into being just about 20 years ago. Saskatchewan was named from the river which watered its plains, and Alberta was named for the Marchioness of Lorne. The Alberta Act came into force on September 1, 1905.

George Dineen was first Lieutenant Governor, and A. C. Rutherford, Edmonton member in the territorial assembly was asked to form a gov. Mr. Rutherford became premier, provincial treasurer and minister of education. Hon. W. C. Cross, attorney general. Hon. H. C. Manning, minister of public works. Hon. T. W. Finlay, minister of agriculture.

The first provincial election was November 9, 1905, and the Liberal won 22 seats. Conservatives 2. A. J. Robertson, Nanton, was leader of the Conservative opposition, and W. C. Rutherford, father of C. H. Rutherford, minister of Finance was the other Conservative. Mr. Manning was the other Conservative.

Mr. Manning had defeated a rising young Calgary lawyer by the name of R. B. Bennett.

The first session was held in the strating rink in Edmonton, and later was driven by the cold to temporary building near the present Legislative building.

The selection of the provincial capital was a big preliminary question and by a vote of 16 to 5 the selection of Edmonton was made.

Alberta's boundary was set at the 100th parallel on the north. The population was 72,000 and 20 years have increased the population to 779,000.

With a lid on his eye,  
And a bridge on his nose;  
With a chin like a horse,  
And a neck like a rope,  
And a nose on his toes,

And a nose on his feet,  
With a cap on each knee,  
On each shoulder a blade;  
From bottom to top,  
He's the queerest thing made.

**CHRISTIAN SCIENCE.** At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be Reality. The following is one of the Scriptural quotations contained in the Lesson-Sermon. But my God shall supply all your need according to his riches in glory by Christ Jesus.

(Philippians 4:19) One of the correlative passages from Science and Health with Key to the Scriptures, by Mary Baker Eddy, is as follows, page 265. Man understands spiritual existence in proportion as his treasures of truth and love are enlarged. Man must gravitate toward, their attractions and aims grow spiritual, they must near the broader interpretations of being, and gain some proper sense of the infinite, in order that sin and mortality may be put off.

## ASSISTANCE TO EXHIBITORS

Alberta government will once again  
assist seed grain exhibitors at the  
Toronto Royal Fair and Chicago In-  
ternational this fall. For the royal  
fair, entry fee and shipping costs to  
Toronto will be paid on approved ex-  
hibits in classes for registered or cer-  
tified seed, also on boys and girls club  
exhibits. Return shipping costs will  
not be paid. Entry fees must be paid  
first by the exhibitors and will be re-  
funded on presentation of receipts.  
No assistance will be given in the reg-  
ular open classes.

At Chicago International hay and  
grain show, where Alberta has made  
such an outstanding record in seed  
grains for the past 15 years, the gov-

ernment will pay the shipping costs  
on approved exhibits. Prize money in  
the regular grain sections at Chicago  
won by Alberta exhibitors will be dup-  
licated by the provincial government.  
In the case of one or more first prizes  
or championships being taken, a  
special bonus of \$50 will be granted,  
which will be increased to \$100 in the  
case of championships in wheat, oats  
or barley. The provincial field crops  
branch will as far as possible super-  
vise the arrangements for the exhibi-  
tors. The exhibits of seed grain are to  
be prepared in time to be forwarded  
to Chicago by freight. On those go-  
ing by express, half the cost will  
be borne by the government.

## ALBERTA CHEESE TAKES TOP

Alberta cheese leaped into the lime-  
light for the first time in many years  
last week, when an exhibit of three  
entries from a cheese factory near  
Edmonton, in competition with such  
famous dairying areas as the Fraser  
Valley in B. C., took all three first  
prizes in the cheese classes at the  
Vancouver exhibition. The prize win-  
ning Alberta cheese came from the  
little factory at Buford, west of Leduc.  
The fact that this pioneer settlement  
was able to sweep the boards in the  
face of stiff competition from cheese  
factories of many years' standing in  
the coast province, was widely com-  
mented on by dairymen at the coast.  
The cheese maker responsible for the  
production was Alex Kerr, who has  
been connected with the Buford fac-  
tory for some time.

A Scotsman was strolling along  
the quay one day when his dog stop-  
ped beside a basketful of live lob-  
sters. Instantly one of the lobsters  
snapped its claws on the dog's tail  
and the surprised canine dashed off  
down the street yelping.

The fishmonger for a minute was  
speechless with indignation, then,  
he bawled:

Mon, mon, whistie to yer dog!  
Whistie to yer dog.

Hoos, mon, returned the other  
complacently, whistie to your lobster.

—(C)—

The conductor came down the bus  
collecting fares and stopped before a

passenger who was sitting with his  
arms extended in front of him.

Your fare, please, he asked.

You'll find a dime in my right hand  
out pocket, said the man.

The conductor stared at the man  
suspiciously.

Anything the matter with your  
arms? he asked.

Oh, no, came the reply, the width  
between my hands is the size of a  
pane of glass I'm going to buy.

Mr. Hepburn was anxious to see the range country as he is selling three carloads of Alberta Herefords for his Ontario farm, where he boasted three steers were fed five off the same carload, a few days before he left, so heavy is the Ontario crop.

### THE PRAIRIE SENTINEL THE ELEVATOR

The vast and undulating prairie is dotted with innumerable elevators, each, keeping watch over fertile fields of the world's best wheat. Plain, rugged, unadorned, yet with stately de-

corable and built to serve, the grain elevator is a symbol of all that is best in our western Canadian life. Through swift flying minutes of prosperity and dragging days of depression, through summer and winter seed time and harvest, rain or drought, hail or frost, the elevator stands, a humble but essential factor in that mighty river of golden grain, peacefully flowing, that the people in the east might be fed.

The elevator, unadorned but having a dignity all its own, and a purpose

plan which none is more necessary, day in and out throughout the autumn weeks are wagon loads and trucks loads of grain being hauled from the farms to be temporarily stored in the bins of the elevator, until larger transportation services carry the grain away to the larger stores of the mighty elevators at Port William or Vancouver, eventually to be converted into bread for mankind. In this far thing service the small town or country elevator has and will continue to play an essential, important part. Stern not its unadorned architecture, its who are of more catholic taste. It has grown out of the needs of the soil and is peculiarly Canadian, yes Western Canadian.

We hail the great dignity and solemn usefulness of the country elevator. It is a mighty link in the chain connecting the producing farmer and the near or far distant consumer.

Assuredly other nations are playing a large part in the hope of averting that written message and using their utmost influence, to ward off such a subsonal calamity as will result if it here remains adamant.

In the meantime, we of lesser clay, stand like puppets in the laps of the gods, waiting we know not what.

A his "writing" even tho' it came, the Arch Dictator pays for his greed with defeated purpose, and his own fate, that seems inevitable, yet with all the merciless hand of retributor will fall heavily and irrevocably on his people.

Mussolini is not ignorant of the powerful odds that would be against him strongly prepared as Italy is since we most devoutly hope and believe, that he will yet yield to overtures of and for peace but they must be of sufficient value to appease the greed and vanity of the Italian tyrant ruler.

Only by such overtures does it appear the world can be saved from a winter of sorrow such as time could not efface.

As oft repeated thoughts and acts establish the character of the individual, so in the Nation does the course of action determinedly pursued, regardless of outside influence, lead to a state, ruthless and inexorable, as Fate. Witness the Clara, Napoleon, and—

### AUTUMN DAYS BRING AUTUMN HUES

The leaves so lately green, are now crimson, golden or seared. Jack Frost is getting in his little unworldly touches, and soon the branches which are now so beautiful in their Autumn coloring will stand out bare and stark against an Autumn sky. It is the onward March of the Seasons, over which even Mussolini has no control.

As if a Spring's first call.

Shouts down the mournful  
wind,  
"Behold!"  
And wakens all the garden up. —O.

## A Reasonable Request

Is gratitude numbered among the human virtues?

If so there should be some appreciation for the Wheat Pools in Western Canada today.

No organization has fought harder against the strongest kind of opposition.

And all for the benefit of the grain growers of the west.

No organization has so courageously faced danger and even the threat of extinction. In order that the grain growers might not be sacrificed to greed and the arrogance of wealth and power.

Continuous criticism has been the lot of this farmer organization through the bitter years.

In which it fought for the grain farmers. Surely it is not asking too much to suggest that the grain farmers

Should give their patronage to Alberta Pool Elevators.

It is through deliveries of grain that this organization is kept strong and virile. Won't you do your part? Every wagon load Counts.

ABERHART EXPECTS 30 TO 35  
SEATS IN HOUSE OF COMMONS

—O—  
Premier Aberhart predicted recently in Ottawa that from 30 to 35 social credit members will be elected to the next parliament.

Dad, where was Hissel Ruth born?

I don't know, lad.  
Well, where was Dizzy Dean born?  
I don't know that either.  
Then, you're not much better in history than I am.

### NEW FILMS ON ALBERTA

New national parks films for public showing have been added this week to the film library of the provincial publicity bureau, under the co-operative arrangements with the national parks department at Ottawa. Among them are included a number of films taken in Alberta last fall by the national parks department movie camera men. One of the films is entitled Stalking Big Game, showing

movies of the wild animal life in Jasper Park. Another film is The Trail to Jasper, showing views of Edmonton and the trip to Jasper Park and scenes in the park. A third is a new film on Waterton National Park, and a fourth is a Skiing film taken at Lake Louise. The provincial bureau now has a library of some 25 films.
